

08 – 10 October 2019

# 5G CMM Expo and Conference

Meet the „Who is Who“ of the mobile revolution in mechanical engineering and vehicle construction and experience the world's first Real Laboratory and the entire application range of 5G.

www.5GCMM.com

The new congress **5G CMM EXPO** – with CMM standing for Connected Mobile Machines – will become the leading annual event for key technologies in terms of autonomous and semi-autonomous machines and vehicles.

The **5G CMM EXPO** focuses on mobile automation technologies, embedded systems, software solutions for mobile applications and, of course, 5G. The new event offers a top-class conference with more than 100 speakers, accompanying exhibition and many showcases.

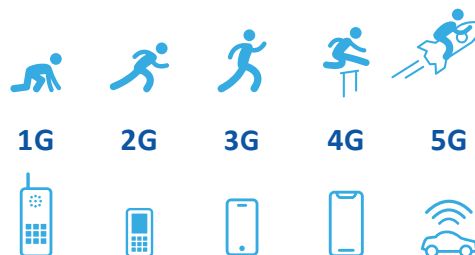

## SPEAKERS (excerpt)

- Dr. Andreas Müller**  
*Chairman of the 5G-ACIA, Head of Communication and Network Technology, Bosch Corporate Research*
